Industrial and Home Cleaning | Multipurpose Cloth

Noam Urim's super-absorbent Household Cleaning cloths are designed especially for cleaning. These Multipurpose cloths can be used on nearly every type of surface.

Main Features

- Can absorb at least 9 times its weight
- Machine washable up to 40° C
- Can be printed and branded

General Cleaning Cloth

These all-purpose General Cleaning cloths can be produced from 25% to 80% viscose in a variety of colors and weights, starting from 90 gr/m².

Antibacterial

The proprietary Noam Urim Antibacterial cloth was developed by the Noam Urim R&D team especially to inhibit microbial growth on the cleaning cloth itself and to give a much longer shelf life.

Biodegradable

The Noam Urim Biodegradable cleaning cloth presents an environmentally friendly, highly absorbent product. These specialty wipes are made from natural fibers only. They were developed by the Noam Urim R&D team to provide an environmentally friendly multipurpose cloth. These 100% biodegradable wipes absorb more than 10 times their weight yet retain an excellent hand.

Industrial and Home Cleaning

Abrasive

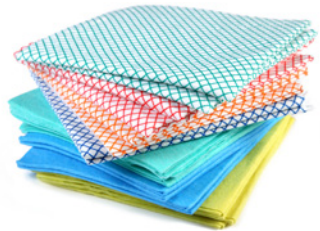

Another Noam Urim innovation: Highly textured cloths with raised "dots" designed especially to take off tough or caked-on dirt.

These wipes serve a double purpose: The textured "dotted" side cleans spots and tough dirt while the other side functions as a multipurpose wipe – for complete cleaning.

Impregnated

Noam Urim Impregnated lint-free cleaning cloths bring a shine to window glass and mirrors.

Dry Dish

Noam Urim's Dry Dish provides a convenient, super-absorbent surface for delicate or oversized dishes or pans. An economical solution in any kitchen, the Dry Dish is much more hygienic compared to regular kitchen towels. Machine washable, it stores easily and can be used many times.
